

## Instructions for Downloading and Running the Viewer

- (1) Download the 3 files from the website to your hard drive – probably will be located in your Downloads directory.
- (2) Copy or move the files to a directory (such as c:\data\BCER\).
- (3) If necessary, unblock the MS Excel workbook by editing the Properties for the file.
- (4) Launch the MS Excel workbook.
- (5) In the DBS\_Location sheet, insert the location (directory) and name of the MS Access database.

Location of BCER Source Database	
Source Database	
Directory	C:\Data\Delete\
Name	DBS_BCER_Data_2024_09_SEP_10 accdb

- (6) Review the PDF document for a brief description of the functionality and limitations of the data viewer.
- (7) Enjoy viewing the data and considering additional things that you can do with the data or work directly with the data from the BC Energy Regulator website ([www.bc-er.ca](http://www.bc-er.ca)).
